A few notes about today’s Webinar

• All lines are muted throughout the webinar.
• Please use the Q&A box to ask questions or make comments.
• Today’s Webinar recording and slides will be posted to the PHN website following the presentation. You can find past FOP presentations on our website at https://pediatrichealthnetwork.org/future-of-pediatrics/
PHN Grand Rounds

September 22 @ 12-1pm
Liberating Black Wellness: Grappling with the History of Anti-Black Racism, its Modern-Day Impact, and the Way Forward for Pediatric Practices
Nia Heard-Garris, MD, MSc, FAAP
Nevin Heard, PhD

This interactive session will allow participants to join break out groups to discuss addressing racism and implicit bias in their own practice. The main session will be recorded and the handouts and guidelines reviewed during the Grand Rounds will be available on pediatrichealthnetwork.org
Speakers

Amy Dyett, MEd
Asad Bandealy, MD, MPH
Heidi Schumacher, MD
Brooke Bokor, MD, MPH
Natasha Ramsey, MD, MPH

- No financial or business interest, arrangement or affiliation that could be perceived as a real or apparent conflict of interest in the subject (content) of their presentation.
- No unapproved or investigational use of any drugs, commercial products or devices.
Identifying and Addressing School Absenteeism in Pediatric Practice

August 26, 2020
Meeting Presenters

- Dr. Asad Bandealy, Children’s National
- Dr. Heidi Schumacher, DC Office of the State Superintendent of Education
- Amy Dyett (Moderator), Healthy Schools Campaign
Meeting Objectives

● Participants will be able to:
  ○ Describe key aspects of chronic absenteeism and school attendance and what is occurring with school attendance tracking during COVID-19.
  ○ Identify actions to support families with distance learning and school attendance and engagement.
  ○ Determine ways to connect families to services being provided to children and youth during this time (i.e., mental health, IEP/504 services, etc.).
AAP Policy Statement on School Attendance

In February 2019, AAP released a policy statement regarding the role of pediatric providers in addressing school attendance.
Key Aspects of Chronic Absenteeism

**TRUANCY**
- Counts only *unexcused* absences
- Emphasizes compliance with compulsory school attendance law
- Can result in legal and administrative action (e.g., truancy court)

**CHRONIC ABSENCE**
- Counts *all* absences: Excused, unexcused and suspensions
- Uses community-based strategies as solutions

*Missing 10% = About 2 days/month or almost a full month of school*
Who is Most Impacted by Chronic Absenteeism

4X more likely to be chronically absent

➔ Youth from low income backgrounds
➔ Youth of color
➔ Youth who have experienced trauma or Adverse Childhood Experiences (ACEs)
➔ Youth with disabilities
➔ Youth who experience homelessness
➔ Youth who have been in contact with the juvenile justice system

Additionally:
➔ Students in extracurricular activities (e.g. athletics and band)
➔ Families that vacation during the school year
Lasting Impact of Chronic Absenteeism

➔ Chronic absenteeism in early grades can lead to below grade-level reading in 3rd grade, which in turn impacts high school graduation rates.

➔ By high school, irregular attendance is a better predictor of school dropout than test scores.

➔ Not earning a high school diploma is associated with increased mortality risk or lower life expectancy.
Health-Related Conditions and Social Factors are a Leading Cause of Chronic Absenteeism

- Asthma
- Oral health and dental pain
- Influenza
- Anxiety
- Depression

- Parental physical or mental health issues
- Type I and II Diabetes Mellitus
- Seizure disorders
- Obesity
Health-Related Conditions and Social Factors are a Leading Cause of Chronic Absenteeism

Social factors:

- Exposure to trauma
- Safety concerns
- Housing instability
- Access to:
  - Food
  - Transportation
  - Healthcare

Over 80% of health outcomes are driven by socioeconomic factors, behaviors, and the physical environment.
Chronic Absenteeism Rates

During the 2018-2019 school year, the following percentage of all public school students were chronically absent:

- **11%** of all students in **Virginia**
- **20%** of all students in **Maryland**
- **30%** of all students in **DC**
Straight A’s
How Pediatricians Support School Attendance

“ASK” ABOUT SCHOOL ATTENDANCE & ENGAGEMENT

→ Routinely ask about the number of absences a student has experienced and if they are engaged in distance learning (as applicable).

“AMPLIFY” THE IMPACT OF SCHOOL ATTENDANCE & ENGAGEMENT ON HEALTH AND ACADEMIC OUTCOMES

→ Provide guidance on when a sick child should stay home, especially regarding high-risk COVID-19 symptoms, and when to return to school after a positive COVID-19 test in the household.

→ Put up posters and provide handouts to convey the importance of attendance to caregivers/patients.
“ADDRESS” BARRIERS TO SCHOOL ATTENDANCE & ENGAGEMENT

➔ Conduct comprehensive well-child exams that screen for:
  ◆ Physical health
  ◆ Mental health
  ◆ Oral health
  ◆ Social determinants of health, including access to internet and technology

“ACTIVELY” PARTNER WITH SCHOOLS AND FAMILIES TO SUPPORT ATTENDANCE

➔ Help with or inform families about available school and community-based supports.

➔ Help address access issues by:
  ◆ Extending office hours
  ◆ Offering telehealth
  ◆ Providing information for the family to connect with the school regarding IEPs

Adapted from resources by American Academy of Pediatrics, Healthy Schools Campaign, and Attendance Works.
School Year 2020-21 and COVID-19

- Reopening Schools
  - Nationally
  - Locally
- AAP Role: COVID-19 Planning Considerations: Guidance for School Re-entry
- AAP State Chapters
- Role of Individual Pediatricians
School Year 2020-21 and COVID-19

- **District of Columbia**
  - DCPS - virtual
  - DC Public Charter Schools - varies

- **Maryland**
  - Montgomery, Howard, Anne Arundel, Prince George’s, Baltimore City, Baltimore Counties - virtual
  - Originally (since rescinded), all private and parochial schools ordered to go virtual through Oct 1

- **Virginia**
  - Arlington County, Alexandria City, Fairfax County, Falls Church - virtual
School Year 2020-21 and COVID-19

- Many public, charter and private schools across the DMV are operating fully virtually or in hybrid posture.
  - Equity concerns
  - Digital divide
  - Non-instructional services (mental health, meals, IEP services)
- Attendance data will vary by State or Local Education Agency and may not be comparable to prior years’ data.
Tracking Attendance During COVID-19

- Absenteeism is still a leading indicator of educational inequity.
School Actions for School Attendance and Engagement During COVID-19

- **Schools need to:**
  - Monitor lost learning time in school - participation in asynchronous or synchronous virtual or in-person learning opportunities
  - Adopt a holistic approach to collect attendance data and expanded measures of connectivity and participation
  - Promote a tiered approach to supporting students beginning with prevention
School Actions for School Attendance and Engagement During COVID-19

- **Schools need to:**
  - Strategically target investments that address the digital divide, lack of supports (health, economic, nutrition, housing, etc.) and other inequities
  - Provide IEP services, including mental health
  - Provide meal services
Pediatric Actions for School Attendance and Engagement During COVID-19

- Consider you may be the only touch point for youth during this time
- Become familiar with resources provided by the local school district and refer families to the school for IEP services, technology access issues, etc.
  - If entitled IEP services are not being addressed, contact a local advocacy organization on children’s law
- Ask about school attendance and engagement
Pediatric Actions for School Attendance and Engagement During COVID-19

● Adopt a holistic approach and conduct mental health and other screening tools, referring out when needed
  ○ Social, emotional and mental health supports are lacking for many youth

● Become familiar with local public health recommendations for:
  ○ Staying home when exhibiting high-risk COVID symptoms
  ○ School closure protocols
  ○ Clearance protocols to return to school

● Advocate at the school and/or district level
Resources

**Straight A’s**
Supporting School Attendance

“ASK” ABOUT SCHOOL ATTENDANCE
- Routinely ask at preventive care visits and sick visits about the number of absences a student has experienced and if they are engaged in distance learning (as applicable).
  - **NOTE:** This can be coded and billed as Z55.8, “challenges with school attendance”

“AMPLIFY” THE IMPACT OF SCHOOL ATTENDANCE ON HEALTH AND ACADEMIC OUTCOMES
- Provide guidance on when a sick child should stay home, especially regarding high-risk COVID-19 symptoms, and when to return to school after a positive COVID-19 test in the household.
- Put up posters and provide handouts to convey the importance of attendance to caregivers/patients.

DC AAP Fall Symposium:
The Pediatric Provider's Role in School Attendance and Engagement

September 29, 2020
6:00-8:00pm
Zoom Video Conference

Join providers and educators from DC, Maryland and Virginia to learn how to support school attendance and engagement this school year.

Learn more and register here by Sept. 28, 2020.
Closure

“
For the 2020-2021 school year, partnerships across the education, public health and healthcare sectors are more vital than ever.”
