#### Exhibit 1

### **Duty to Warn**

- A. Practice warrants that it will (1) take all appropriate steps to assure that all vaccines discounted and/or purchased under the CNHN-Merck group purchasing program shall be administered to each patient on the basis of an individualized medical judgment by a physician, or (2) take all appropriate steps to provide to such patient (or to the patient's parent or guardian) meaningful and complete warnings relating to the risks and benefits of vaccination, in form and language understandable to such patient, parent, or guardian.
- B. If any suit asserted against Merck by a third party is based in whole or in part on a claim for failure by Practice to properly discharge the responsibilities assumed by it under paragraph A above, Practice shall upon prompt written notice of such claim or action, indemnify Merck and hold Merck harmless for any cost attorney's fees and damages associated with the defense of such claim or action and to provide its full cooperation and assistance to Practice in defense of such claim.
- C. In the event of Practice's breach of, or failure to carry out, its responsibilities under paragraph A above, any measure of resulting damages to Merck shall include, but need not be limited to, damages (including money judgments, reasonable attorneys' fees, and other cost) sustained in connection with claims against Merck for personal injuries caused by such breach or failure. This provision shall not limit any other right of Merck to obtain damages of other relief for any breach of this contract or for the settlement of any dispute arising under this contract.
- D. It is the policy of Merck to ship any Merck Vaccine only to those persons or entities who are licensed by law to accept such shipments.

  Practice represents either that it is authorized by state law to accept shipment of any Merck Vaccine or that it has designated such a person or entity to accept the shipment of any Merck Vaccine called for by this contract.
